Product Description

High Voltag Lifepo4 Rackmount Lithium Battery 30kwh-50kwh Energy Storage System For Industrial Applications

Capacity Range: These systems are typically available with capacities ranging from 30 kWh to 50 kWh, allowing scalability to meet varied energy storage requirements.

Voltage: They operate at higher voltages, such as 480V AC, which is common for industrial and grid-tied applications.used in these systems are lithium iron phosphate (LiFePO4), known for their safety, long cycle life, and reliability.

Rack Mount Design: The modular rackmount form factor allows these high-voltage systems to be easily integrated into industrial facilities, electrical rooms, and other commercial spaces.

Use Cases:
Renewable energy integration and time-shifting
Peak shaving and load shifting to reduce energy costs
Frequency regulation and other grid ancillary services
Backup power and uninterruptible power supply (UPS) for critical loads
