Product Description

High Voltag Lifepo4 Rackmount Lithium Battery 30kwh-50kwh Energy Storage System For Industrial Applications

Product Description:

These systems are typically available with capacities ranging from 30 kWh to 50 kWh, allowing scalability to meet varied energystorage requirements. They operate at higher voltages, such as 480V AC, which is common for industrial and grid-tied applications. used in these systems are lithium iron phosphate (LiFePO4), known for their safety, long cycle life, and reliability.

Rack Mount Design: The modular rackmount form factor allows these high-voltage systems to be easily integrated into industrial facilities, electrical rooms, and other commercial spaces.

Use Cases:

Renewable energy integration and time-shifting
Peak shaving and load shifting to reduce energy costs
Frequency regulation and other grid ancillary services
Backup power and uninterruptible power supply (UPS) for critical loads
